

# Construction Activity Guide

- This is a quick Power Point presentation on items that will need to be completed to comply with the EPA Storm Water Rules

# Approvals

- Have you received final site approval from the Planning Board?
- Are there conditional requirements?
- Have you completed a Notice of Intent (NOI) to the EPA?
- Was a copy of the NOI given to the City of Manchester?
- Is your permit on the Active List at the EPA website (requires a 7-day posting to go from pending to active).
- Did you print out a copy of this approval to be keep with NOI?

# Storm Water Pollution Prevention Plan (SWPPP)

- Have you developed a SWPPP and do you have it available at your work site?
- Does it contain a weekly inspection form?
- Are you completing your weekly inspections and are they on file for review?

# Inspection Requirements

- A site inspection must be completed at least once weekly if  $< 1/2''$  of rain occurs during that week
- A site inspection must be completed within 24 hours of any rain event  $> 1/2''$
- Recent rain information can be found at the following website
- <http://www.weather.com/weather/monthly/03103>

Don't be the cause of failed BMPs. It may cost some money to do it right the first time, but it will avoid enforcement, fines and penalties in the long run. If you have questions, you can call Rick Cantu at 765-0320.
